PAMPHLET LIST

No. 3

U.S.D.A. Library, Albany Branch, Western Regional Research Laboratory, Albany, Calif.

The former issues of this series were called "Library List", but it was suggested that we change the title in order to avoid possible confusion with the "Library List" series issued by the Department Library. So, with our apologies to the Bard of Avon we say,

What's in a name? that which we call a list

By any other name will serve as well.

Your response to our first two lists exceeded our expectations, - we hope that future issues will be of interest to you.
